

# Transformation Through Sexual Healing

Experience the power of releasing past soul imprints to full flow of your creative life force. Reveal and heal limiting wounds in a safe supportive environment.

Judith Shivani Davis, ACTE, CMT, Rolfer

Judith has three decades of experience guiding individuals, couples and groups in reclaiming sexual, spiritual, emotional and physical health. Using her skills and intuition, informed by her experience as a Rolfer, massage therapist, spiritual guide in the path of inquiry, and a sexual healer, Judith can work with past wounds and traumatic patterns. She is also certified in the Tantric Arts. Her work can restore balance and alignment in body, mind and spirit. Full Embodiment is our divine birth right as evolving human beings.

Scott Roy. ACTE, AMP, Reiki Master

Scott has studied and uses various techniques including Healing Touch, Therapeutic Touch, Polarity, Tantra, Reflexology, Native American and intuitively guided techniques. Scott is also a Reiki Master. Scott's ability to direct energy is quickly felt. The client immediately senses the warmth and vibration of Scott's healing hands. Relaxation is quick to come, followed by a soothing sense of inner peace and calm. The client's body begins its healing process as the energy flows where it is needed.

Together Judith and Scott have woven a body of work that evokes the wisdom stream of the divine masculine and the divine feminine. Each session can be an archetypal journey in the presence of these dual energies. If you would like to experience healing and awakening, pleasure, love and spiritual connection in your life, come explore and release the things that would hold you back.
